PROFESSIONAL SUMMARY

Product & Software Engineer at Maverick Secure LLC with experience building scalable cloud, mobile, and AI-powered systems using AWS, Cloudflare, React Native, Next.js, and Python. Contributed to hyperscale cloud migrations, ML automation pipelines, and performance optimizations achieving up to 60% lower latency and 85% faster deployments.

EDUCATION

Bachelor of Technology (Artificial intelligence)

2024 - 2028

Newton School of Technology, Rishihood University

Grade: Pursuing

EXPERIENCE

Product & Software Engineer

May 2026 - Present

Maverick Secure LLC

Florida, USA (Remote)

- **Tech Stacks:** TypeScript, Next.js, Python, FastAPI, PostgreSQL, AWS, Cloudflare, Terraform, Git, Github.
- Engineered **9+** RESTful API services and a Next.js and React frontend for an **AI-driven** SaaS platform, shipping full-stack features.
- Mentored **2** interns as primary technical point of contact, reviewing **100%** of their code, pull requests, and documentation.
- Authored **12+** engineering standards, architecture decision records, and onboarding guides adopted by the engineering team.
- Built and deployed **Cloudflare** and **AWS IaC** with Terraform and **CI/CD** pipelines across **2** environments for reliability.

Learner Career Council

March 2026 - Present

Newton School of Technology

Sonipat, Haryana, India

- Serving as a core member of the **Learner Career Council**, bridging students with **placement, operations, and product teams**.
- Driving **career guidance** initiatives through internship support, placement coordination, mentorship, and roadmap planning.

INTERNSHIPS

Software Engineering Intern

November 2025 - May 2026

Maverick Secure LLC

Florida, USA (Remote)

- **Tech Stack:** React Native, TypeScript, Expo, AWS, GCP, Amplify, Cognito, TanStack Query, Zustand, Google Places.
- Developed a React Native contractor app comprising **32** screens, **22** modules, and **235** TypeScript files.
- Led **GCP-to-AWS hyperscaler migration** across **79** APIs, enhancing platform scalability, reliability, and cloud operations.
- Orchestrated **22** feature modules and 32 API services with React Query caching and Zustand state management.
- Architected MFA, RBAC, and token lifecycle workflows, reducing authentication overhead and load times by **10s**.

Mobile Development Intern

July 2025 - November 2025

Maverick Secure LLC

Florida, USA (Remote)

- **Tech Stack:** React Native, TypeScript, Expo, Zustand, TanStack Query, Vision Camera, GCP Cloud Run.
- Delivered an Expo paint-estimation app with **37** screens and **133** TypeScript modules for contractor job flows.
- Integrated **16** REST APIs on GCP Cloud Run plus **Vertex AI** wall analysis for jobs, rooms, estimates, and customers.
- Implemented Zustand and React Query with AsyncStorage offline sync across **3** stores for quotes, rooms, and job data.
- Secured auth using **SecureStore** tokens, Bearer API headers, role signup, and Stack. Protected Expo Router screens.
- Shipped Vision Camera multi-lens capture, AI room analysis, and Expo Print PDF quote exports for all job quotes.

PROJECTS

ShopSmart ([Github](#)) ([Demo](#))

February 2026

- **Tech Stack:** Next.js, TypeScript, Express, Prisma, PostgreSQL, Docker, Terraform, GitHub Actions, AWS, Swagger, Clodflare.
- Built production e-commerce platform with **62 REST operations**, **3-role RBAC**, and live cloud deployment.
- Architected layered backend using **30 interfaces**, **24** repositories, DI, **SOLID** principles, and **EventBus** workflows.
- Designed **14-table PostgreSQL schema** with Prisma, indexed relations, ER diagrams, and secure access controls.
- Automated delivery using **9 GitHub Actions**, Docker, Terraform, ECS/EKS, and Cloudflare, accelerating deployments **85%**.
- Secured production workloads with **Cloudflare**, managed **WAF**, **DDoS** protection, and automated cloud deployments.

SKILLS

Computer Language: Bash Scripting, C++, CSS, HTML, Java, JavaScript, Python, SQL, TypeScript

Databases & Data Tools: Excel, Firebase, MongoDB, MySQL, PostgreSQL, Spreadsheet, Tableau

AI / ML: GenAI, Hugging Face, Keras, LangChain, LangGraph, LLM, Machine Learning, OpenAI API, TensorFlow

APIs & Testing: API testing, ESLint, Jest, Swagger, Unit Testing

Cloud & DevOps: AWS, Docker, Docker Compose, Git and Github, GitHub Actions, Google Cloud Platform, Kubernetes, Linux, Nginx, Terraform

Domain & Business Skills: Figma, Jira

Frameworks & Libraries: Express JS, Matplotlib, Next.js, Node.js, NumPy, Pandas, Prisma ORM, React, React Native, Redux, Tailwind, Zustand
